Filed May 21, 2013
File No. 001-35941

Dear Ms. Long,

I am submitting this letter in response to the Staff's letter of comments dated June 17, 2013 regarding our Form 10 filed on May 21, 2013.

Our responses below have been numbered to correspond to the Staff's comments. Amendment No. 1 to Form 10 has been filed contemporaneously with this letter.

General

1. We note that the filing has been submitted on EDGAR as a Form 10-12B. Please clarify whether you are filing the Form 10 to register your common stock pursuant to Section 12(b) or Section 12(g) of the Exchange Act.

Response: We are filing Form 10 to register our common stock pursuant to Section 12(g) of the Exchange Act as such Amendment No.1 to Form 10 has been amended accordingly from a 10-12B to a 10-12G/A.

2. Please be advised that the Form 10 registration statement will become automatically effective 60 days after the original filing date pursuant to Section 12(g)(1) of the Exchange Act, to the extent applicable. If our comments are not addressed within the 60-day period, you should consider withdrawing the Form 10 prior to effectiveness and re-filing a new Form 10 that includes changes responsive to our comments. If you do not withdraw, you will be subject to the reporting requirements under Section 13(a) of the Exchange Act.

Response: We acknowledge this comment.

3. Since you appear to qualify as an “emerging growth company,” as defined in the Jumpstart Our Business Startups Act, please disclose in the beginning of your registration statement that you are an emerging growth company and revise your registration statement to:

- Describe how and when a company may lose emerging growth company status;
- Briefly describe the various exemptions that are available to you, such as exemptions from Section 404(b) of the Sarbanes-Oxley Act of 2002 and Section 14A(a) and (b) of the Securities Exchange Act of 1934; and
- State your election under Section 107(b) of the JOBS Act:
 - o If you have elected to opt out of the extended transition period for complying with new or revised accounting standards pursuant to Section 107(b), include a statement that the election is irrevocable; or
 - o If you have elected to use the extended transition period for complying with new or revised accounting standards under Section 102(b)(1), provide disclosure explaining that this election allows you to delay the adoption of new or revised accounting standards that have different effective dates for public and private companies until those standards apply to private companies. Please state that, as a result of this election, your financial statements may not be comparable to companies that comply with public company effective dates. Include a similar statement in your critical accounting policy disclosures.

In addition, consider describing the extent to which any of these exemptions are available to you as a Smaller Reporting Company.

Response: We have determined that the Company is an Emerging Growth Company and have added a section under "Emerging Growth Company Status". We have also added additional risk factors to Item 1A - Risk Factors regarding our status as an Emerging Growth Company.

Business, page 2

General

4. We note the disclosure in Note 2 to your financial statements that you have not filed federal and state tax returns since inception and that the tax periods for the years ending December 31, 2008 through 2012 are “open to examination by federal and state authorities.” Please add disclosure in this section detailing regarding this fact and clarify whether federal and state authorities are currently investigating these tax periods. In addition, please disclose outstanding balances due to federal and state governments and add any disclosure to your Legal Proceedings section to the extent required by Item 103 of Regulation S-K.

Response: We have added additional disclosure under Part 1, Item 1 Business under the caption "Income Taxes".

5. In some places in this section you use terms that are industry specific jargon. For example, you use the terms “pyrolytic first phase,” “cold plasma second phase,” and “H2S.” Please revise to provide context for these terms so an investor not familiar with your industry can understand your use of these terms.

Response: We have added additional language to clarify industry specific jargon so that an investor can better understand the use of these terms.

Response: We have provided additional disclosure regarding the 2008 reverse merger.

7. Your disclosure states that you own and manage four operating entities, but your disclosure lists five separate subsidiaries with only three appearing to have operations. Please revise and clarify to indicate the extent of each subsidiary's activities and revenues.

We note the disclosure in Note 2 to your financials that as of December 31, 2012 you had one customer who accounted for approximately 38% of your accounts receivable and had two customers with sales, when combined, in excess of 27% of your total revenue. See Item 101(h)(4)(vi) of Regulation S-K. Please also file any contracts with such customers as exhibits to the Form 10 to the extent material.

Response: We have added disclosure regarding the name(s) of our major customer(s) and our dependence upon them. With regard to significant customers, the Company does not have a single contract or master agreement with this significant customer. The revenue generated from this customer is a series of small service requests none of which is material individually.

Subsidiaries, page 2

10. Please disclose, to the extent accurate, that you have three separate segments. Identify which operating subsidiary is part of which segment as well as the percentage of net sales generated by each subsidiary and each segment so that investors can understand the dependence of your business on the operations of any particular subsidiary.

Intellectual Property, page 4

13. The disclosure “REGS pioneered the development and use of a unique non-human-entry cleaning system – the Mobile Powered Cleaning Unit (MPCU) – a highly mobile, self-contained system that utilizes robotic tank-cleaning devices” may suggest that this subsidiary was the first to utilize non-human tank cleaning systems. Please revise your disclosure to place this in context. For instance, disclose as applicable the extent other companies use non-human systems to clean tanks in this industry.

Response: This entire disclosure has been eliminated as there are additional companies in the marketplace that have non-entry tank cleaning systems.

Risk Factors, page 6

We are subject to certain rules and regulations of federal, state and financial market exchange entities . . . page 9

18. We note your statement that because your common stock is “publicly traded,” you are subject to certain rules including the Sarbanes-Oxley Act of 2002. However, it appears that you have not been subject to the reporting requirements of the Exchange Act and therefore Section 404 of the Sarbanes-Oxley Act would not be applicable to you. Please revise this risk factor to explain specifically how the referenced rules and regulations have affected you historically. To the extent you wish to reference compliance with such rules and regulations following effectiveness of the Form 10, please revise your disclosure to clarify.

Response: Our disclosure has been revised to eliminate disclosure regarding compliance with Section 404 of the Sarbanes-Oxley Act.

Our stock is considered a “penny stock” . . . , page 9

19. We note your statement that “[t]hese disclosures require you to acknowledge you understand the risk associated with buying penny stocks and that you can absorb the entire loss of your investment.” Please revise this statement to remove any suggestion that the disclosure in the Form 10 requires an investor to make such acknowledgements.

Results of Operations for the year ended December 31, 2012...., page 13

22. Please expand/revise your discussion under results of operations for all periods to:

- Quantify the extent to which increases in service and product revenues are attributable to changes in prices, volume or amount of projects, or change in mix of projects. For example, you explain on page 13 the increase in revenues is primarily attributable to the increase in revenues from your industrial cleaning segment. However, you do not provide any additional insight into the reasons for the increase in revenues from your industrial cleaning segment;
 - Provide a more robust explanation for the changes in line items within your statements of income including but not limited to product costs and service costs. For example, you indicate on page 14 that the increase from the quarter ended March 31, 2012 to 2013 was primarily attributable to the 134% increase in revenues which resulted in an increase of \$875,000 or 119% in product and service costs without further explanations as any other reasons for the increase in product and service costs; and
-

Enhance your disclosure to discuss the business reasons for the changes between periods in the significant line items of each of your segments. At a minimum, you should discuss the changes in revenue, material expenses and income (loss) for each segment. In doing so, please disclose the amount of each significant change in line items between periods and the business reasons for it. In circumstances where there is more than one business reason for the change, attempt to quantify the incremental impact of each individual business reason discussed on the overall change in the line item.

This is not meant to represent an all-inclusive list of where your MD&A should be improved. We encourage you to provide quantification of amounts and further clarification throughout your discussion. See Item 303(a)(3) of Regulation S-K.

Response: MD&A has been greatly expanded to add additional information about changes in revenues and expenses from year to year and quarter to quarter.

Please expand this disclosure to discuss the components that resulted in the increase in cash flows used by operations as well as the underlying reasons for changes in these components, with specific discussions for account receivables, costs in excess of billings on uncompleted contracts, accrued liabilities and related party notes payable accrued interest, billings in excess of revenue on uncompleted contracts and payroll taxes payable.
