INCREASE IN AUTHORIZED CAPITAL STOCK

General.

On January 10, 2025, our Board unanimously approved the adoption of an amendment to our Articles of Incorporation to increase the number of shares of common stock we are authorized to issue from 70,000,000 to 320,000,000 (the "Amendment"). On December 31, 2024, the Majority Stockholders voted in favor of the Amendment and vote of the Majority Stockholders was obtained by written consent, in lieu of a special meeting. The terms of the additional shares of common stock will be identical to those of our currently authorized shares of common stock. The relative rights and limitations of the shares of common stock will not be changed by the Amendment.

Consent Required.

Approval of the Amendment required the consent of the holders of a majority of the issued and outstanding shares of our shares entitled to vote, both common and preferred stock, as of the Record Date, or at least 62,374,823 votes. As of the Record Date, the Majority Stockholders owned shares with votes in an aggregate of approximately 83,332,463, representing approximately 68% of the entitled votes concomitant with our issued and outstanding shares of both common and preferred stock. The Majority Stockholders have given their written consent to the Amendment and accordingly, the requisite stockholder approval of the Amendment was obtained.

Amendment.

Our Board and the Majority Stockholders have voted to amend Article Five: Amendment of Articles of Incorporation of our Articles of Incorporation to increase the number of our shares of common stock the Company is authorized to issue from 70,000,000 to 320,000,000. The text of the amendment to our Articles of Incorporation, substantially in the form attached to this Information Statement, is included as Appendix A.

Reasons for Increase in our Authorized Shares of Common Stock.

The principal purpose of increasing our authorized Common Stock is to ensure that the Company has sufficient shares of Common Stock available for general corporate purposes, including, without limitation, equity financings, acquisitions, debt conversions, establishing strategic relationships with corporate partners, providing equity incentives to employees, or other recapitalizations. Without an increase in the shares of Common Stock authorized for issuance, the Company might not be able to conclude any such transaction in a timely fashion.

To the extent that additional authorized shares are issued in the future, such issuance may decrease our existing stockholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to our existing stockholders. The holders of our Common Stock have no preemptive rights to subscribe for additional securities that may be issued by the Company, which means that current stockholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership of Common Stock. In addition, if the Board elects to cause the Company to issue additional shares of Common Stock or securities convertible into or exercisable for Common Stock, such issuance could have a dilutive effect on the voting power and earnings per share of existing stockholders. The increase in our authorized capital will not have any immediate effect on the rights of our existing stockholders.

The increase in the number of authorized shares and the subsequent issuance of such shares could have an anti-takeover effect, although this is not the intent of the Board in initiating the Amendment. For example, if the Board issues additional shares in the future, such issuance could dilute the voting power of a person seeking control of the Company, thereby deterring or rendering more difficult a merger, tender offer, proxy contest or an extraordinary transaction opposed by the Board. Any such issuance of additional stock could have the effect of diluting our earnings per share and book value per share of outstanding shares of our Common Stock or the stock ownership and voting rights of a person seeking to obtain control of the Company. The relative rights and limitations of the shares of Common Stock will remain unchanged under the Amendment.

The Company does not have any other provisions in its Articles of Incorporation, Bylaws, employment agreements, or any other documents that have material anti-takeover consequences. Additionally, the Company has no plans or proposals to adopt other provisions or enter into other arrangements that may have material anti-takeover consequences and this Amendment is not being enacted with the intent that it be utilized as a type of anti-takeover device.
